Re: U.S. Patent Application Serial No. 09/844,970 for Automated Database
Publishing and Integrated Marketing System and Program; Inventor: James
Savoie et al, filed April 29, 2001.

Dear Ms. Green:

Pursuant to our telephone conversation of today's date, I attached copies of materials filed with the Patent Office and communications received from the Patent Office for your use in reconstructing the Patent Office's lost file in connection with the above patent application. These documents are:

1. Copy of new Application Transmittal mailed April 27, 2001 with new application (28 pages of specification, claims, and abstract; 5 sheets of drawings; check for \$595); 2 assignments; declaration and power of attorney; non-publication request;
2. Copy of Postcard showing PTO's receipt of Items listed in #1;
3. Copy of Official Filing Receipt for Application Serial no. 09/844,970
4. Copy of Correspondence enclosing Petition to Correct Correspondence Filing Date for "Date-In" Incorrectly Entered or Omitted on Express Mail label, with Exhibits A-E; check for \$130;
5. Copy of postcard showing PTO's receipt of Items listed in #4.
6. Copy of Recordation of Assignment documents (2);
7. Copy of letter to Charlema Grant requesting status report
8. Copy of Letter from Charlema Grant of July 11, 2002, regarding "search"

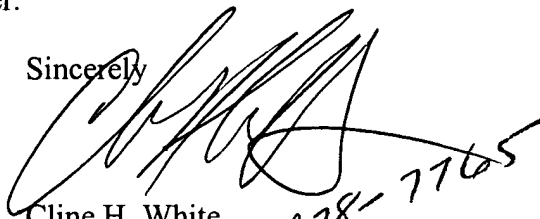

for file.

SOLE ASSIGNMENT

WHEREAS, I, James Savoie ("ASSIGNOR"), a citizen of the United States of America, residing at 107 Talavera Parkway #134, am the inventor of an invention described as:
SAN Antonio, TX 78232
the computer program, coding, method, and related systems referred to as Automated Database Publishing & Integrated Marketing system ("ADPIM")

for which a patent application has not yet been filed, however it is presumed that a patent application will be filed in the future.

WHEREAS, Alamo Iron Works ("ASSIGNEE"), a Texas Corporation, of 943 Coliseum Road, P.O. Box 231, San Antonio, Bexar County, Texas, 78291-0231, is desirous of acquiring the entire right, title, and interest in and to said invention and application including any and all divisions and continuations thereof, in the United States and throughout the world, including the right to make applications for Letters Patent throughout the world in respect of said invention and to claim priority under the International Convention for such applications, and any and all Letters Patent which may be granted therefor, including any and all renewals, reissues, and prolongations thereof.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt whereof is hereby acknowledged, I, said ASSIGNOR, hereby assign, sell, transfer, and set over unto ASSIGNEE, and ASSIGNEE'S successors, assigns, and legal representatives, the entire and exclusive right, title, and interest in and to said invention, related technology, and any improvements or derivative inventions of which I may be an inventor in the future, including without limitation any and all applications, renewals, divisions and continuations thereof, and all patents, and reissues thereof, which may be granted thereon in the United States and throughout the world, including the right to make applications for Letters Patent throughout the world in respect of said invention and to claim priority under the International Convention for such applications, and any and all Letters Patent which may be granted therefor, including any and all renewals, reissues, and prolongations thereof, and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said invention in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; all forms of industrial property protection, including, without limitation, patents, utility models and design which may be granted for said invention in any country or countries foreign to the United States and all extensions, renewals and reissues thereof; and any and all causes of action thereto that may have heretofore accrued in ASSIGNOR's favor;

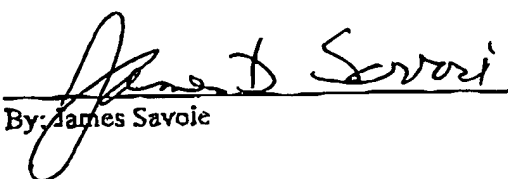

ASSIGNOR hereby covenants and agrees that ASSIGNOR will communicate to ASSIGNEE, its successors, legal representatives and assigns, any facts known to ASSIGNOR respecting said invention; testify in any legal proceeding; sign all lawful papers, including without limitation all divisions, continuing and reissue applications, that may be necessary to file applications in the United States and foreign countries for said invention and to assign the same to ASSIGNEE, or any assignee acquiring title to said invention, and to execute any other papers that may be needed in connection with filing said application and securing Letters Patent thereon; make all rightful oaths; and generally do everything possible to aid ASSIGNEE, its

successors, legal representatives and assigns, to obtain and enforce proper patent protection for said invention in all countries.

ASSIGNOR hereby authorizes and requests the Commissioner of Patents of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to ASSIGNEE, its successors, legal representatives, and assigns, in accordance with the terms of this instrument.

ASSIGNOR hereby covenants that ASSIGNOR has the full right to convey the entire interest herein assigned, and that ASSIGNOR has not executed, and will not execute, any agreement in conflict herewith.

PETITION TO CORRECT CORRESPONDENCE FILING DATE
FOR "DATE-IN" INCORRECTLY ENTERED OR OMITTED
ON EXPRESS MAIL LABEL
(37 C.F.R. § 1.10(d))

1. This is a petition to accord the correspondence in the above-identified application/patent a filing date of April 27, 2001, which is the date the correspondence was deposited with the U.S.P.S. with proper postage.
2. Submitted herewith as Exhibit A is a statement of Cline H. White as to when the discrepancy was discovered and establishing that this Petition is being filed promptly thereafter. 37 C.F.R. § 1.10(d)(1).
3. Attached as Exhibit B is a true copy of the first page of the correspondence which was filed, showing both the date on which this correspondence was mailed as Express Mail Label No. EL548126105US and that the number of the Express Mail was placed thereon prior to the original mailing. 37 C.F.R. § 1.10(d)(2).
4. Correction is required because an illegible, or the wrong, "Date-In" was entered by the U.S.P.S. on the original "Express Mail" label and on the envelope delivered to the P.T.O.
5. The following establish the showing required by 37 C.F.R. § 1.10(d)(3):
 - a. **Signed Certificate of Mailing:** The new application transmittal cover letter, which is attached hereto as Exhibit B, shows that Bianca Grossweiler testified that

the patent application and associated documents were deposited with the U.S. Postal Service Express Mail Post Office to Addressee on April 27, 2001.

- b. **Post Office Filing Receipt:** A true and correct copy of the Post Office Filing Receipt is attached hereto as Exhibit C. This receipt shows that the patent application was delivered to the U.S. Post Office for next-day delivery. The filing stamp indicates that the patent was filed on April 27, 2001. The date-in, which is handwritten in by the Postal employee, is illegible. One interpretation is that the handwritten date-in is "04-29-01." However, an equally likely interpretation is that the date-in is "04-27-01," where the "7" is written in European style, with the top of the seven touching the cross, making the "7" appear to be a "9." In any case, the filing stamp clearly shows April 27, 2001, as the mailing date. The filing stamp is applied by the US Postal Service, is perfectly legible, and is more reliable than a hand-written note. Furthermore, the filing stamp is regarded by the U.S. Postal Service as the official receipt date. If the date-in notation is deciphered as "29," said date is clearly contrary to the Post Office stamp and other evidence, and was in error.

The Post Office Filing Receipt further shows that the subject application was deposited as "Express Mail" before the last scheduled pickup on the requested filing date.

- c. **United States Postal Service track/confirm-intranet item inquiry:** A true and correct copy of the United States Postal Service Tracking and Confirmation Sheet is attached hereto as Exhibit D. This tracking sheet was created by and received from the U.S. Postal Service. It identifies the item number of the mailing as EL548126105US, which is also shown as the tracking number on the new application transmittal, Exhibit A, and the Post Office Filing Receipt, Exhibit C. The Tracking/Confirmation Sheet shows that the package was mailed on April 27, 2001. It further shows that the scheduled delivery was April 28, 2001, that the package arrived in Washington on April 28, 2001, and a notice was left with the addressee (USPTO) on April 28, 2001. Finally, it indicates that the package was delivered on April 30, 2001, to an "M. Boston" at the Patent Office in Washington, D.C.
- d. **Certificate from Mr. Fastino Alva, U.S. Postal Service Customer Service Manager:** The original letter from Mr. Fastino Alva, Customer Service Manager for the U.S. Postal Service at the post office where the patent application was mailed is attached hereto as Exhibit E. It certifies that the package identified as Express Mail No. EL548126105US was mailed on July 27, 2001, and that the computer tracking system print-out (attached as Exhibit D) and the Express Mail Customer Copy label (attached as Exhibit C) are authentic and indicate a mailing date of April 27, 2001. It further states that the "Date-in" recorded by the postal employee was either written as a "29" and is an error, or was written as a "27" and is being misread as a "29." Finally, Mr. Alva requests that the PTO accept his letter as proof that the correct mailing date was April 27, 2001.

The subject patent application was deposited with the United States Postal Service for next-day delivery on April 27, 2001, as evidenced by each of the attached exhibits. The Post Office employee accepted the package and stamped the receipt with a postal stamp dated April 27, 2001, but, in the handwritten notation, wrote a date that is unclear and could be interpreted as either April 29 or April 27. The patent application arrived in Washington, D.C. for delivery on April 28, 2001; but, because April 28 was a Saturday, the Patent and Trademark Office was closed. The next day of delivery was April 30, 2001, a Monday, when in fact the patent application was delivered to the Patent and Trademark Office. The PTO gave the application a filing date of April 29, 2001.

An additional item that is further evidence that the 4-29-01 date is incorrect, is that April 29, 2001, was a Sunday. The U.S. Postal Service is closed on Sundays and will not accept express mail deliveries, therefore April 29, 2001 could not possibly be correct. Further, assuming *arguendo* that the subject patent application was mailed after the 29th, it would have been impossible for the USPTO to have received it on the 30th. Therefore, logic dictates that the application was mailed before April 29, 2001. And, as the above evidence shows, the application was delivered to the United States Postal Service for overnight delivery on April 27, 2001.

6. The petition fee (37 C.F.R. § 1.17(h)-\$130.00) is paid as follows:

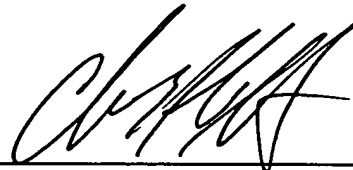

Attached is a check in the amount of \$130.00.

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

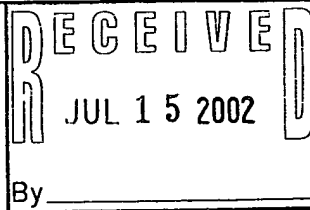

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
